Notes on library facilities access in Texas

After extensive violent attacks, slanderous treatment of me acted-out by role-players, and other harassing conduct in Texas libraries I asked NRA members (armed) to come to my side as I attempted to research my book, using printing equipment for creating excerpts and mailers, etc., and in those libraries like most places I was in fear for my lives as plants of people fiennging to me victims of my missuse of the libracy acted out bulling treatment of me.

I was ordered out of the library and warned not to return and I never would without a firearm or someone with a firearm. I have hoped for better in Dallas if I moved there but I would not expect it in Texas. Gereal Sosbee has written on the CIA Family Jewels program of the FBI and CIA. A Vietnam veteran, former FBI Counter-Intelligence FBI Special Agent under J. Edgar Hoover during the Cold War, and now a victim of thugs has had the same experiences. Living in Texas without library facilities and the level of death threats I have receive ad police backed break-ins to my home, faked rental records, cuts to the wiring of the buildings I have lived in and around the clock noises to keep me awake are the norm.

Not having library access in Texas is another factor I need to weigh as well as housing safety I have not found.

I assert long ago I was attacked radiolocally and have experience food poisonings (food products visible treated with syringe injections, etc., and live the life former FBI Special Agent (Counter-Espionage Bureau) Geral Sosbee described in his affidavit and similar affidavit of Ted Gunderson assert of having "people planted on him" paid actors used in long term smear campaigns and harassment and illegal FBI CIA activities.

I Edward Donegan have had knives and other weapons pulled on me in the library and outside threatening me when I use various names of public officials in my books. One of my books corrects the record on Ted Gunderson and cuts through the misunderstandings and smears.

I am on my way to Dallas and hope not to have this occur there.

THE HIDDEN EVIL: THE FINANCIAL ELITE'S COVERT WAR AGAINST THE CIVILIAN POPULATION

By Mark Rich

If most people knew that a handful of unelected people were running their government they would probably be outraged. While most members of some of these elite organizations may not be aware of their true objectives, there is an inner- core that is.

This [hidden black opps mafia] organized crime network prefers to remain behind the scenes. But its existence is not completely hidden.

By incident, or accident, people such as targeted individuals, corporate/government whistleblowers, and others, have directly experienced how government really works [utilizing criminal acts and espionage allies] and who [as very high ranking public officials] controls it. Their experience on the front lines has given them insights into impending situations that the general population is not yet aware of. [nor is the public aware of how many illegal rackets and illegal markets are under direct control of profit seeking mafia abusing non-investigatory Targets or their property or their reputations or their health or publications or books that are victim statements.]

Their potential enemies are placed under constant surveillance by the security forces and attacked with silent and traceless directed-energy weapons that leave no visible injury. These attacks are combined with psychological warfare used to inflict recurrent emotional pain.

Use of Blacklisting is a main tool of destroying lives and credibility often staged compromising appearaces then talking them up behind the vicitims back in the office, etc.,

Job opportunities will be trashed. Most Targeted Individuals are unemployed. Many would be in the street if it weren't for parents, siblings, or friends. Those who are employed are usually mobbed.

"Progressive financial impoverishment, [isl brought on by termination of the individual's employment, and compounded by expenses associated with the harassment," wrote McKinney. Most of the targeted individuals she was able to observe during her early investigations were mobbed out of employment by their coworkers.

There are blacklists and software packages used to check these lists for suspected terrorists and threats to national security. Apparently this is a flourishing business, according to the American Civil Liberties Union (ACLU).

Blacklisting has also been used on Russian dissidents. In his book, The Persecutor, Sergei Kourdakov, a member of the plain- clothed PeopWs Brigade, declared that once a person was targeted they could only get the worst jobs, if they were employed at all.1 To accomplish this, the government of the USSR used something called a workbook, which could advance or destroy careers. If you were cooperative with the state, your career could be very successful. If not, you would live in poverty.

In East Germany dissidents were blacklisted as well, and their careers were destroyed. After the wall came down they were allowed to inspect their files, and learned why they were unable to get jobs or enter into universities.

Targets may regularly experience acts of vandalism. Electronic equipment may fail or act strangely. People have reported this happening with electrical systems in their cars, brand new appliances, TVs, radios, PCs, and other electronic devices. Ongoing computer problems which do not follow any logical pattern may also occur. They include hardware and software issues that span from the file to the internet level.

Many times this vandalism is just below what you'd report to the police. For instance, a small but noticeable portion of your wall has been chipped off, and a crack has appeared in one of your windows. This may be restricted to minor vandalism, just to let you know that you're under surveillance.

However large-scale property damage is also done to homes and vehicles. Some people have reported that their pets die suddenly of a mysterious illness. Vandalism and pets being tortured may also be in retaliation for you taking action to expose them. "Automobiles are one of the biggest targets," said Moret.

People have reported that tires are slashed, oil is drained, windows are smashed, electronic components are tampered with, and breaks and clutches are sabotaged.

McKinney wrote: "Vehicles invite peculiarly ferocious attacks in these harassment campaigns - slashed tires, smashed windows, oil drainage, oil contamination, destruction of electronic components and batteries grounded fuel gauges" and "suddenly failed brakes and clutches," are common, as are recurrent auto thefts.

According to Moret and McKinney citizens are being used to conduct staged vehicular accidents. They are deliberately colliding with the vehicles of targeted individuals.

There is communication between the surveillance faction, citizen informant squads, and local businesses in the area. Obviously the managers of stores are contacted by a representative of this program, possibly by cell phone, pager, or walk-in, and told to prepare for the arrival of the TI. A picture or video of the targeted person may be shown to the participating staff.

The targeted individual may also be identified as he or she walks into the store. The IMs in East Germany communicated using non-verbal cues, so this is also a possibility. When the TI arrives, those who have been co-opted follow through with crowding and noise attacks.

They also work in unison with plain-clothed citizens to harass the targeted customer. Advanced electronic methods of communication, which are not commercially available, may be used by the coordinating faction to direct these citizens. Friends & Family Friends and family of targeted people are used to harass them. Identical tactics were used during Cointelpro. According to the book, War at Home by attorney Brian Glick, FBI records reveal frequent maneuvers to generate tension (harassment) on targeted people by recruiting their religious leaders, children, parents, landlords, and others into investigations.

Cathy Meadows author of "Hey Mom I Am A Targeted Individual" is a Revealor and has written my Autobiography of What I have lived through (and may mother and father and brother did not)

Most agree Stalkers try to create un-peaceful conditions that a normal person will react to and appear abnormal when he or she does. The public does not believe the outcry, that a victims is being stalked and poisoned. Once in a pscyh ward the victim is either on ice, discredited, neutralized, and without a typewriter, or killed by the institutional staff and their snitch network. I could provide 7K examples of this system if my mind were able to remember all. I call stalking "Hearding." As Meadows points out once facing strange circumstances the rational mind will both report it and try to find its orginins. The Stalk is denied and the explanation is denied. What is left is an ordinary person asserting facts not believed about being stalked.

The stalked person is a Conspiracy Theorist trying to unravel conspiracies. Mine theory of the stalk and why leads to JKF Conspiracy Theories.
